### Business Arising:

Monica reported that there were between 800 and 1000 people at the clearance sale on the 19<sup>th</sup>; she thanked Paul Finley, the Lions for the barbecue and Gwen Michael and the community for assistance. She reports that there should be a little under \$1400 for the Store account.

Rick has talked to Brad Petschel about the pump for Cronomby Tanks, and thinks it might end up more costly than the first estimate; he is waiting to hear back from Brad, and notes that the original plan to work with the people in Mildura to fix the original pump is still a fall-back.

Trish notes that she is still awaiting contact from Maree re the Landcare grant.

Since the CBA has removed fees from our accounts, the meeting agreed to keeping the fuel account open.

Trish has contacted Marianne Ferguson at the Shire re the acquittal of the Shearing Shed grant; this is on hold until we hear back.

Invoice has been received from Monica for the Look Over the Farm Gate dinner; Trish will submit it to Kim for payment, and complete the acquittal so that LotFG will pay the WDDA. Monies collected on the night (approximately \$600) have been passed to the BNC to help pay for a further event.

---

## **General Business:**

Monica has requested a quotation from a different insurance supplier, and notes that while the quote is a bit more expensive (around \$1400 pa), it covers a good deal more, including electric motors and plate glass, not currently covered. Monica will pass the quote to Kim so that we can obtain a quote from WFI for the same cover, and assess whether we should change providers.
